

ZEBRA® POWERCART SOLUTIONS FOR

Advantages for Wal-Mart:

- **Lower TCO**
 - Battery useful life approximately 3 years
 - Serviced onsite by Zebra
- **Longest Battery Runtime**
 - 20+ hours continuous runtime
 - Very fast recharging – only 3.5 hours to recharge a fully depleted battery
 - on/off switch saves battery life
- **Proven Ruggedness and Reliability**
 - All metal welded frame and welded steel joints
 - True ball bearing castors bolted to frame and are easily field replaceable
- **Optional Assembly and Integration**
 - Zebra can receive, assemble and configure the VC70, ZT410 and PowerCart, providing a total solution. DC receives a fully assembled cart ready to induct and put directly into use.
- **Optional PowerVision®**
 - Allows the battery state-of-charge to be displayed on the VC70
 - Alerting allows for proactive action to prevent unplanned downtime
 - Remote analysis and messaging

ADVANCED INDUSTRIAL POWERCART. RUGGED DURABILITY. LOADED WITH FEATURES.

Designed specifically for Wal-Mart applications for low TCO, long run time and with advanced diagnostics for proactive maintenance.

Reliability Means Cost Savings

- Extremely long runtime
- Battery useful life of three years means more uptime, less maintenance and more cost savings on batteries and administration.
- Zebra onsite service means one company responsible for the cart and every component on the cart.

Effortless to Maintain

- Environmentally friendly battery
- Aside from pre warning or impending battery failure, PowerCarts are designed for simple plug and play maintenance. Each electrical component uses industry standard color coded and keyed anti arcing connectors for fast and easy replacement.
- Zebra exclusive PowerVision on board remote cart diagnosis enables pre-failure warning and proactive maintenance. As well as cart location search.

Designed for the End User

- Small footprint
- Rugged castors with swivel and tracking castor technology
- Functional with slide out printer tray for easy and fast media swap out.
- 10' replaceable power cord
- Pre-drilled holes for easy mounting of the VC70
- Safety Yellow

Simple to Manage with optional PowerVision

- Remote and Local Visibility Into System Health
- Cloud Connect allows Link-OS printers to securely and directly interact with the Cloud for printing and device management.

Flex500-ZW-PVRS-UL

	ZWPVRSUL-140
	
Battery Runtime (approx.)	16-18 hrs.
Charger Size	40a – recharge from full depletion 3.5hrs.
PowerVision	Included
UL Certification	Included

ZebraCare™ Services

Increase printer, cart and vehicle computer uptime, and reduce lost productivity and unbudgeted repair costs by selecting a ZebraCare service agreement. A cost-effective means of planning and budgeting for your annual maintenance expenditures, your agreement ensures that trained Zebra technicians will bring your Zebra products back to factory specifications. Zebra offers a variety of plans to fit your budget and business needs.
